

# EML-AM MB

Addressable Module  
For 3rd -party Lights

## Overview

The EML addressing module enables to integrate 3rd party lights into the addressable system. External lamps should be tested in our factory before use.

## Technical Specification

Model	EML-AM MB
Power Rating	
Voltage Range	AC/DC 120-240V 50/60Hz 25mA input current/ 100W
<b>Module</b>	
Functions	Phase monitoring, Test mode with changeable cycle time, Controls the inverter's operation, Battery status monitoring, Addressed device status monitoring, It has light switch input.
Fixation	On the top or on the side, only for addressable systems
Switching time	<500ms
Terminals	2.5 mm <sup>2</sup> single wire or 1.5 mm <sup>2</sup> stranded and soldered
Body	Polycarbonate/white
Ambient temperature	10°C-30°C
Dimensions (width, height, depth)	47x36x164 mm
